## Education:

- Humboldt State; M.S. in Fisheries (2000)
- U.C. Berkeley; B.S. in Resource Management (1994)

## Current Position:

- Fisheries Biologist for Sonoma County Water Agency

## Obsessions:

- Catching fish
- Studying fish
- Eating sushi
- Thinking about all of the above

I'm beyond excited to once again participate in Craig, Dave, and Glenn's exquisitely planned offshore adventure. I grew in L.A. and have been taking San Diego tuna trips for a couple of decades. Like most of us I love chasing pelagics (the picture on the right is from a June 1-7, 2003 trip to Baja's Rancho Leonero) but also enjoy my fare share of steelheading and chasing trout with a 5 wt. Together with my partner in crime (see Mike Henn's page below) I've tried to hook just about every game fish California.

My wife Natalie (HSU alum and NMFS biologist) and I have lived with our dog Gaucho and cat Timber in Santa Rosa for the past three years. I've been conducting applied research on coho, steelhead, and Chinook for Sonoma County Water Agency since 1999. From 1997-1999, I was a fisheries biologist for Point Reyes National Seashore.

It won't be long before we're swapping stories and tossing baits to boiling albies and bluefin in the corner! Can't Wait!

Tight Lines,

*Dave*

*M.*
